# Do Thien Trang Pham

Evergreen High School

13th Year Scholarship

\$5,000

Trang will be attending the University of Washington in the fall. They plan to double major in art and design. Their hope is to create entertainment that can expose art to people, giving them new ideas and teaching them new lessons. Trang shares, "I've simply admired animation and comics since I was five. When reading comic, I wanted to tell my own story with my art. When watching animation, I want to learn how to make my character move. That's why I started to draw and tell story through art. The more I make art, the more I want to work in this field."

Trang lived in Vietnam until they were 17 years old. They moved to the United States just over a year ago because their parents believed that they and their brother will have a better education here.

As a first generation student, Trang believes that attending college will make a change for their family and allow them to pursue their dream in art and design. The scholarship will really help their family a lot.
