Scholarship Recipient

Thien-An Nguyen

Mount Rainier High School

13th Year Scholarship

\$5,000

Thien-An will be attending the University of Washington Seattle this fall where he will be studying computer science. He chose this field as he wanted a challenging career that will allow him to intertwine his passions for service and technology in order to develop products that will resolve everyday problems and create an interconnected society. "Learning about how Bill Gates uses technology to develop the world into a better place inspired my career goals. Similar to him, I want to partake in the efforts to create an interconnected world while being an inspiration to those around me and to the future generations. I want to utilize both my technology and service skills to help people worldwide, mitigating the problems faced in everyday life," shared Thien-An.

Thien-An is grateful for receiving this scholarship as he has three siblings all who hope to attend college as well. "I would like to extend my deepest gratitude to Mr. and Mrs. Tilden for awarding me this scholarship. Thank you for continuously supporting the youth, such as myself, in their career endeavors."

Highline Schools Foundation awards post-secondary scholarships to graduating seniors in Highline Public Schools. Thanks to generous funders, the Foundation is able to offer many different types of scholarships. This year, it is anticipated that over \$200,000 in scholarships will be awarded.
