

CONNECT HIGHLINE STUDENTS

Due to COVID-19, Highline Public Schools will be opening schools online only in the fall of 2020. The district is doing everything possible to ensure that all families in the district have broadband internet service so that students have the opportunity to successfully engage with their teacher and school. Our goal is to raise funds to support 1,000 families who are without broadband internet service.

BACK TO SCHOOL RESOURCES

School supplies can cost a family nearly \$800 each year according to the National Retail Association. Highline Schools Foundation is building 4,000 back to school resource packs filled with school supplies that students can use both during full distance learning and when they are able to be back in the classroom. Help us make sure students have the supplies that they need to be successful in school.

DIAPERS

We have set up a partnership with World Vision and two area churches to provide boxes of food and essentials to Highline families in need. Each week, up to 200 of our families most in need are being served. Diapers have been identified as a need by families at these centers. Therefore, we are accepting donations to provide diapers to families in need during this time.

FEED HIGHLINE FAMILIES

With nearly 70% of our families living in poverty before the COVID-19 pandemic and many more losing jobs and income since March, we have started purchasing \$50 grocery store gift cards and providing them to Highline families in need. Families are identified by social workers, counselors, family liaisons and other school employees.
